

# BLUEBEAM REVU

The industry standard for design and construction workflows.

## What is Revu?

Bluebeam® Revu® is an end-to-end digital workflow and collaboration solution for the architecture, engineering and construction (AEC) industries. It combines powerful PDF creation, editing, markup and collaboration technology to drive project efficiency while saving both time and money.

## What is Studio?

Bluebeam Studio™—included with Revu—enables document-based collaboration in the cloud. Teams can manage projects anywhere, any time, and collaborate with partners on the same documents in real time—regardless of internet access.

See how Revu can enhance your AEC workflows.
